Hazardous Weather

Minor Coastal Flooding Possible

Mainly Around Times of High Tide

Weather Forecast Office
Brownsville/RGV, TX
Issued Sep 16, 2020 4:09 AM CDT

Minor coastal flooding is expected to occur through this evening, mainly around times of high tide. Elevated water levels may also occur across the Laguna Madre and South Bay, and along State Highway 4 west of Boca Chica State Park.

Today | Slightly Warmer and Stormy

Favorable Marine Conditions

Weather Forecast Office
Brownsville/RGV, TX
Issued Sep 16, 2020 4:03 AM CDT

A weakness in the middle layers of the atmosphere, combined with deep tropical moisture, will continue to produce scattered showers and thunderstorms today. Heavy rainfall is likely to be produced with many of the showers and thunderstorms, leading to possible nuisance flooding in low-lying and poorly-draining areas. Meanwhile, along the Lower Texas Coast, mariners will experience favorable marine conditions with generally light winds and moderate seas.

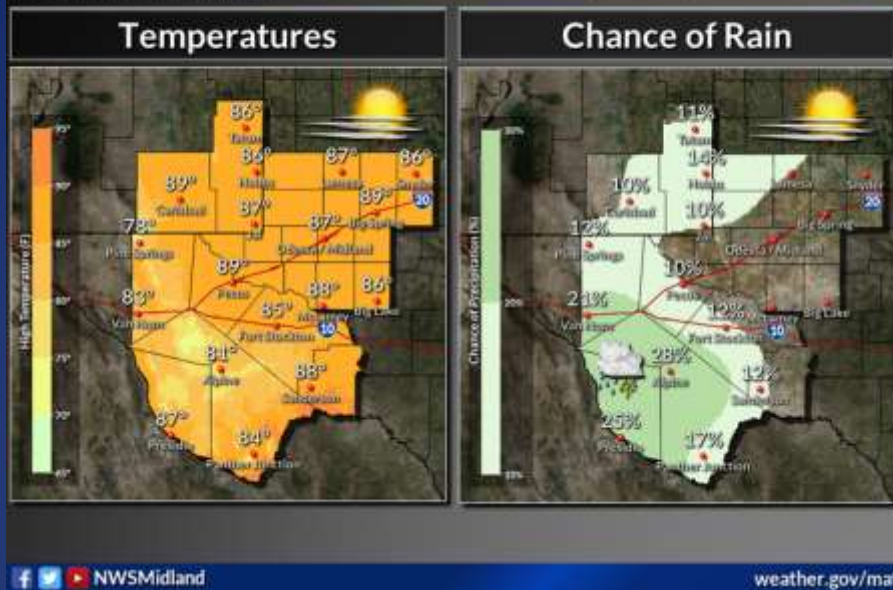

Hazardous Weather

Today

Above-normal temperatures!...

Midland/Odessa, TX

Issued September 16, 2020 3:01 AM CT

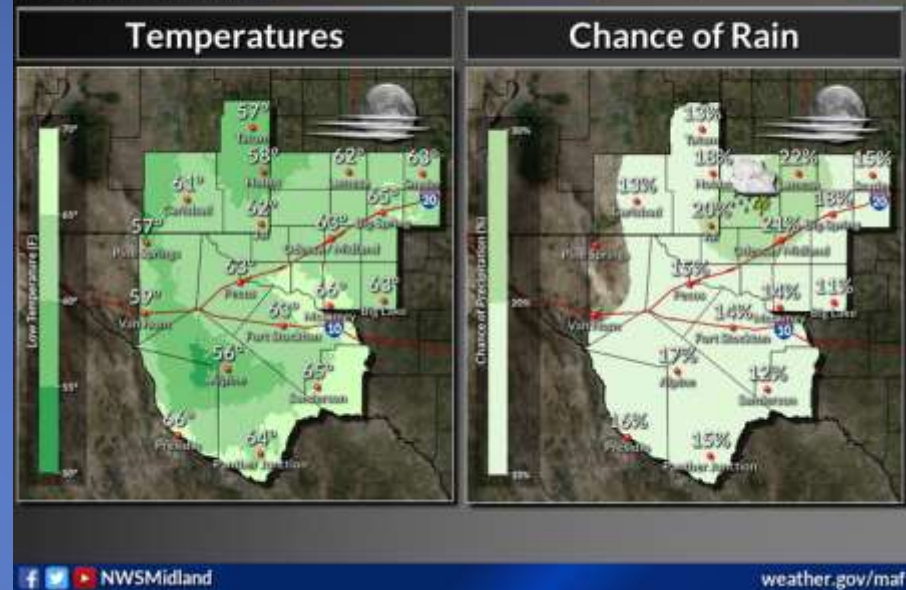

Thunderstorms are possible today. Any storms that do develop will be accompanied by frequent lightning, small hail, gusty winds, and brief, heavy rainfall. Otherwise, above-normal temperatures expected!

Tonight

Above-normal temperatures!...

Midland/Odessa, TX

Issued September 16, 2020 3:14 AM CT

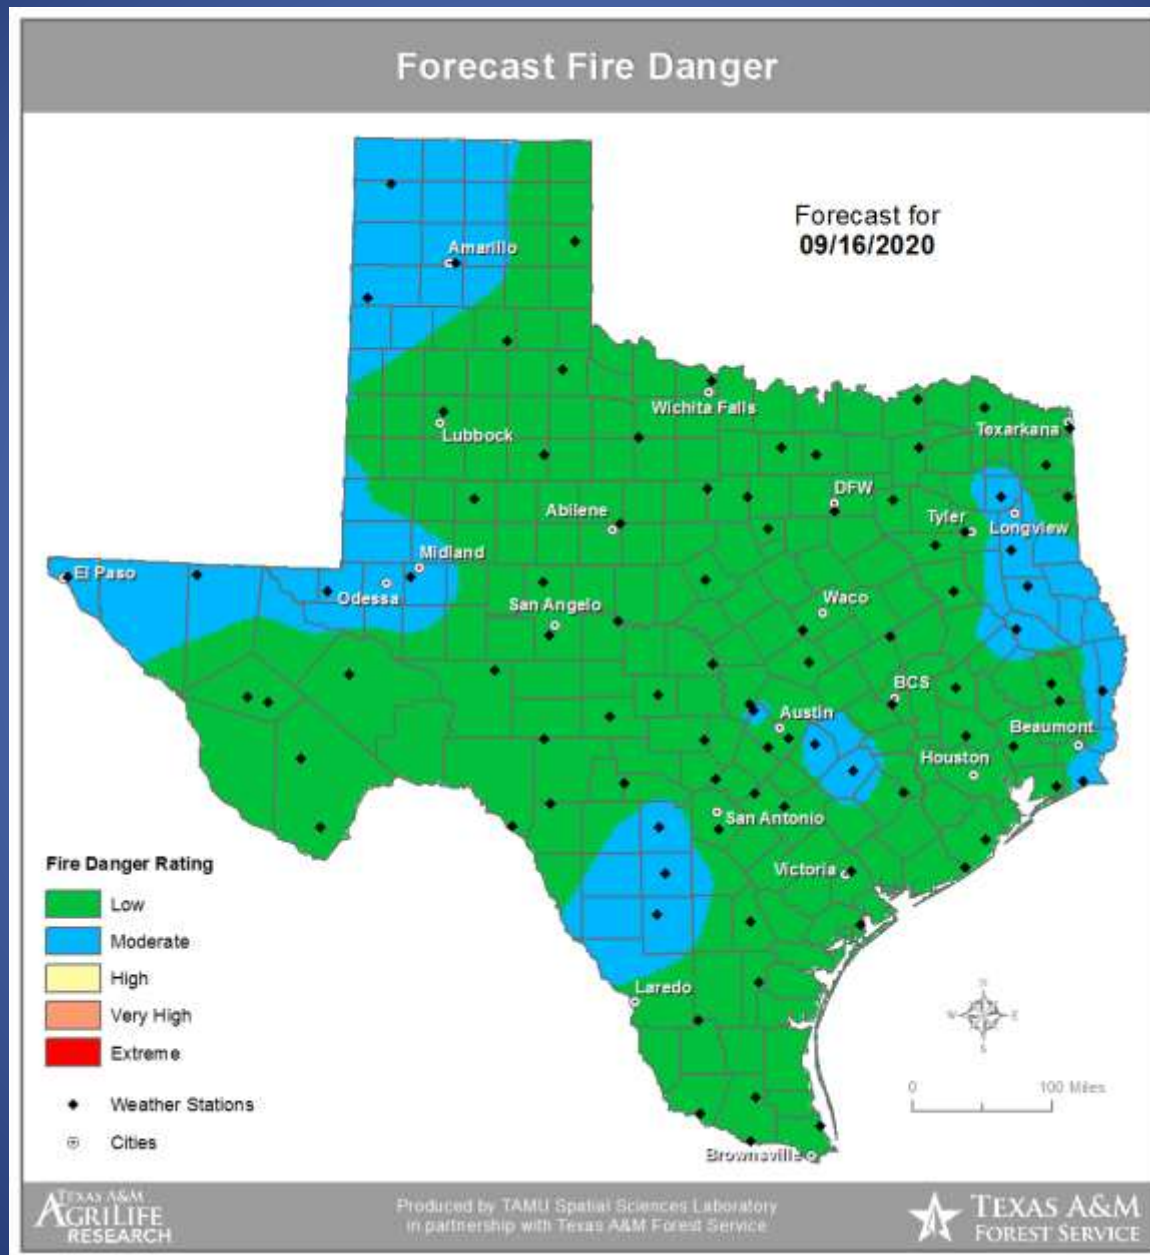

Thunderstorms are possible tonight. Any storms that do develop will be accompanied by frequent lightning, small hail, gusty winds, and brief, heavy rainfall. Otherwise, above-normal temperatures expected!
